ADAM Questionnaire

If you have concerns about "Andropause" and that your testosterone levels may be low, this set of ten simple questions is a good place to start.

Circle YES or NO to each of the following questions:

1. Do you have a decrease in libido (sex drive)?	Yes	No
2. Do you have a lack of energy?	Yes	No
3. Do you have a decrease in strength and/or endurance?	Yes	No
4. Have you lost height?	Yes	No
5. Have you noticed a decreased "enjoyment of life?"	Yes	No
6. Are you sad and/or grumpy?	Yes	No
7. Are your erections less strong?	Yes	No
8. Have you noticed a recent deterioration in your ability to play sports?	Yes	No
9. Are you falling asleep after dinner?	Yes	No
10. Has there been a recent deterioration in your work performance?	Yes	No

If you answered YES to questions 1 or 7 or any 3 other questions, you may be experiencing androgen deficiency (low testosterone levels) and follow up testing may be useful.
